

# Howard Humphreys (East Africa) Limited

*Consulting Engineers*

Our Ref. 10115/30/JMM/ekw/002

17 January 2005

TO WHOM IT MAY CONCERN

**SUBJECT: REPLACING WIRE STEELMESH (BRC) WITH FIBREMESH  
POLYPROPYLENE FIBRES**

**Project: The Junction Shopping Mall** (in 6000m<sup>2</sup> of 150mm Ground  
Floor Slabs)

**Contractor: China Jiangu International Ltd**

Fibremesh was successfully used in the above project as an alternative to weldmesh in the ground floor slab, where it offered a clear advantage in terms of cost and speed of construction.

As the Structural Engineers on the above project, we confirm that the ground floor slab has performed well and would not hesitate to recommend fibremesh for use on similar applications.

Yours faithfully  
for **HOWARD HUMPHREYS (EAST AFRICA) LTD**

**J. M. MBUI**
